PROFESSIONAL SUMMARY

Computer Science graduate (GPA 4.93/5.00) with expertise in building modern, responsive web applications using React.js and integrating AI-powered features. Developed multiple real-world projects including dashboards and AI-based platforms. Bringing 5 years of professional experience in fast-paced business environments, with strong problem-solving, communication, and user-focused development skills.

TECHNICAL SKILLS

- **Front-End Development:** React.js, JavaScript, HTML, CSS, Tailwind.
- **Back-End & Databases:** Python, Django, SQL, PostgreSQL.
- **AI Integration & Tools:** OpenAI API, LangChain, Streamlit, CrewAI.
- **Developer Tools:** Git / GitHub, Linux, Networking Fundamentals.

PROJECTS

PATHLY – AI-Based Personalized Learning Platform

- Developed a responsive web platform that generates personalized career pathways using React.js.
- Integrated AI-powered recommendation system using OpenAI API and LangChain to generate personalized learning paths aligned with real-world job market demands.
- Collaborated on designing system architecture, user-centric data flows, and core features.

Cars Admin Dashboard

- Built a full-featured admin dashboard using React.js to manage car inventory, sales operations, and business metrics.
- Implemented CRUD operations and dynamic data visualization for tracking business metrics.

Personal Portfolio Website

- Designed and deployed a modern personal website to showcase projects and technical skills.

Frontend Practice Applications (Todo App & Calculator)

- Developed functional web applications to master State Management, DOM manipulation, and core programming logic.

WORK EXPERIENCE & TRAINING

AI-Khader Cars Company

Sales Consultant, Marketing Specialist and Showroom Manager (2021 – 2026)

- Progressed through multiple roles with increasing responsibility.
- Led showroom operations, managed customer interactions, and supported marketing activities in a high-volume sales environment.
- Worked in fast-paced, target-driven environments.
- Strengthened communication, negotiation, and problem-solving skills in a target-driven environment.

Qassim Tech (QT) — 8 Weeks (Training)

- Participated in a team-based technical training focused on AI Agents and system workflows.
- Contributed to building an AI-powered customer support system using Streamlit.
- Worked on a multi-agent academic platform, including scheduling and notification features.

EDUCATION

Bachelor of Science in Computer Science at Qassim University

GPA: 4.93 / 5.00

Graduation Year: 2026 (Fresh Graduate)

LANGUAGES

Arabic: Native | **English:** Advanced
